Highlighting Women in Science and Engineering

[Lillian Moller Gilbreth](#)

Lillian Moller Gilbreth was an American psychologist and industrial engineer at the turn of the 20th century.

She was an expert in efficiency and organizational psychology, the principles of which she applied not only as a management consultant for major corporations, but also to her household of twelve children, as chronicled in the book *Cheaper by the Dozen*.

Her long list of firsts includes first female commencement speaker at the University of California, first female engineering professor at Purdue, and first woman elected to the National Academy of Engineering

Brown Bag Webinar - Nano-CT Research Going on at UF: Bats, Frogs, Fossils, Oh My!

Thursday, March 4 12:00 PM [ZOOM](#)

Advertise Your Research!

- Have a seminar that might interest RSC users? Let us know!
- Brag about a new fabrication or characterization technique!
- Share your dissertation information to advertise your area of expertise!

Brown Bag Webinars

• Thursdays 12-1 PM

Tentative Schedule:

	Date
Topic	
	3/4
Nano-CT Research Going on at UF: Bats, Frogs, Fossils, Oh My!	
	3/11
Standard Practices on Co-Authorship	
	3/18
Nano-CT Scanning & Reconstruction	
	3/25
User Advisory Committee	
	4/1
Researcher-Led	
	4/8
NRF: Behind the Scenes!	
	4/15
Photothermal	
	4/22
User Advisory Committee	

9AM Q&A Zoom

[Join Zoom](#)

• RSC Staff are available every morning M-F for

questions regarding DWP submissions, experimental setup, building procedures, etc.

RSC Users Community Forum

- Place for users and staff to interact asking questions, posting updates, and more
- [Click here to join!](#)
